BRAND PORTFOLIO · 2026

PAYS Vape.

The compliance-first POS for vape and smoke shops.

Flavors, nicotine strengths, ID checks, scan data and high-risk payments in one platform.

THE PROBLEM

What gets in the way.

1

Age checks under pressure

One missed ID can cost you your license.

2

Huge flavor catalogs

Hundreds of flavors, strengths and devices to track.

3

Payment headaches

Many processors avoid vape. Chargebacks hurt.

MEET PAYS VAPE

Everything you need. One system.

ID scanning

Scan a license; PAYS approves or blocks the sale.

Flavor & strength variants

Every SKU, device and coil, tracked.

Tobacco scan data

Report sales to manufacturer rebate programs automatically.

Vape-friendly processing

High-risk payment support and chargeback tools.

Refill reminders

Bring regulars back when they’re due.

Online store

Pickup, delivery and synced stock.

ID scanning helps your team check age at the register. Store owners remain responsible for complying with local age laws.
